In my Card of November 1, 1865, I stated that "for the purpose of more fully supplying the wants of the public, and in order to prevent unserupulous dealers from palming off inferior and worthless goods as the Morton Gold Pens, I shall hereafter sell no goods at "hoiesaic except only to duly Appointed and Authorized Agents," de.

To this plan I have since strictly adhered. In accepting agents great care has been exercised to appoint those who, by long-continued fair dealing have acquired a reputation for honesty, responsibility, and probity, men in whose word the public have learned to place confidence. These agents have agreed to keep a full assortment of my pens, and to sell them at my published prices. Thus the public are supplied by them with just such pens as they want, either as to writing or price, and get a full equivalent for the money paid.

No agent is appointed to travel from place to place, or canvass the country, so that all who want a Morton Gold Pen must get it from the Local Agent or from headquarters.

None need apply for the Agency except in conformity to the above, the liberal discount "To Clubs" being sufficient inducement to all A. MORTON. No. 25 Maiden-lane, New-York, Dec. 14, 1867.
